

European Conference on Information Systems - ECIS 2019

Information Systems for a Sharing Society

Welcome to Sweden! Share the legacy of Alfred Nobel and frontier IS research in the cultural and beautiful vicinities of Stockholm and Uppsala.

A Sharing Society enables the advanced development of digital information technologies. Governments, organizations, and individuals have gained new capabilities and opportunities for sharing data, information, and knowledge in the world gone digital. The continuous evolution of a Sharing Society significantly influences the efficient and effective use of information systems and advanced digital technologies. These are important to study from multiple perspectives.

ECIS 2019 A Shared Conference

We co-host ECIS 2019 between Stockholm University and Uppsala University.

We also happily announce that ECIS 2019 is the official AIS Region 2 conference.

Stockholm is the capital of Scandinavia and a city world famous for its history, culture, and beautiful nature. Uppsala is a genuine yet truly modern university city that dates back to the Viking era. It is the perfect place to experience not only Scandinavian academic culture but also the historical and authentic culture of the region at large. We believe that ECIS 2019 will bring you unforgettable memories of Sweden, and especially Stockholm and Uppsala.
